REPUBLIC OF KENYA

COUNTY ASSEMBLY OF LAIKIPIA

THE HANSARD

Wednesday, 15th October, 2025

The House met at the Assembly Chambers at 10.00 a.m.

[The Temporary Speaker (Hon. Paul Leshuel) in the Chair]

PRAYERS

QUORUM CALL

Temporary Speaker (Hon. Paul Leshuel): Clerk, confirm whether we have quorum.

(Lack of quorum confirmed)

Temporary Speaker (Hon. Paul Leshuel): I direct the Serjeant at Arms to ring the bell for 10 minutes.

(Quorum bell rung for 2 minutes)

Temporary Speaker (Hon. Paul Leshuel): Hon. Lempaira?

Hon. Nicholas Lempaira: Mr. Speaker, we have quorum.

Temporary Speaker (Hon. Paul Leshuel): Clerk, confirm whether we have achieved quorum.

(Clerk confirmed achievement of quorum)

Temporary Speaker (Hon. Paul Leshuel): I direct that the bell stops ringing.

NOTICE OF MOTION

FENCING OF ADC MUTARA RANCH TO MITIGATE HUMAN WILDLIFE CONFLICT

Hon. Samuel Mugambi: Thank you, Hon. Speaker. Mr. Speaker, Sir, I beg to give notice of the following motion;

THAT, AWARE THAT the Constitution of Kenya, 2010, under the Fourth Schedule, Part 2, assigns the County Governments the responsibility of implementation of specific National Government policies on natural resources and environmental conservation, including soil and water conservation, forestry, and control of air pollution, noise pollution, and public nuisances;

FURTHER AWARE THAT Laikipia County is home to a rich wildlife heritage that contributes greatly to tourism and community livelihoods, but has over the years experienced rising cases of human–wildlife conflict, particularly in areas bordering ranches and conservation lands such as ADC Mutara Ranch;

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*

NOTING THAT the lack of a proper boundary fence around ADC Mutara Ranch has resulted in the frequent movement of wild animals such as elephants, buffaloes, and zebras into neighbouring communities, causing destruction of crops, injuries, loss of human life, and tension between residents and wildlife conservation stakeholders;

APPRECIATING THAT fencing of the ranch would not only prevent human–wildlife conflicts but also promote security, better range management, and peaceful coexistence between communities and wildlife, while supporting the county's efforts toward sustainable conservation and local development;

This House URGES the County Government of Laikipia, in collaboration with the Kenya Wildlife Service (KWS), the Agricultural Development Corporation (ADC), and other relevant stakeholders, to prioritize and allocate resources for the fencing of ADC Mutara Ranch to mitigate the persistent human–wildlife conflicts affecting residents of the surrounding areas.

Thank you.

MOTION

FENCING OF ADC MUTARA RANCH TO MITIGATE HUMAN WILDLIFE CONFLICT

Hon. Samuel Mugambi: Hon. Speaker, I beg to move the following motion;

THAT, AWARE THAT the Constitution of Kenya, 2010, under the Fourth Schedule, Part 2, assigns the County Governments the responsibility of implementation of specific national government policies on natural resources and environmental conservation, including soil and water conservation, forestry, and control of air pollution, noise pollution, and public nuisances;

FURTHER AWARE THAT Laikipia County is home to a rich wildlife heritage that contributes greatly to tourism and community livelihoods, but has over the years experienced rising cases of human–wildlife conflict, particularly in areas bordering ranches and conservation lands such as ADC Mutara Ranch;

NOTING THAT the lack of a proper boundary fence around ADC Mutara Ranch has resulted in the frequent movement of wild animals such as elephants, buffaloes, and zebras into neighbouring communities, causing destruction of crops, injuries, loss of human life, and tension between residents and wildlife conservation stakeholders;

APPRECIATING THAT fencing of the ranch would not only prevent human–wildlife conflicts but also promote security, better range management, and peaceful coexistence between communities and wildlife, while supporting the county's efforts toward sustainable conservation and local development;

This House URGES the County Government of Laikipia, in collaboration with the Kenya Wildlife Service (KWS), the Agricultural Development Corporation (ADC), and other relevant stakeholders, to prioritize and allocate resources for the fencing of ADC Mutara Ranch to mitigate the persistent human–wildlife conflicts affecting residents of the surrounding areas.

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*

Hon. Speaker, today we have a motion on fencing of Mutara ADC. Before I do that, I want to join other Kenyans in mourning the fallen legend, Tinga, Agwambo, Enigma Raila Amolo Odinga whose life has ended. Raila is a statesman, and even in this House we have members of the Orange Democratic Movement (ODM) party which is led by Raila.

Hon. Speaker, ADC Mutara Ranch touches three or four wards. It touches Salama Ward (the better part of it is in Salama), Sosian, Segera and Ngobit. Myself being a resident of Salama Ward, Mutara Ranch is the main loophole for the many human-wildlife conflicts that we suffer. ADC Mutara Ranch is a government corporation and we all know that the Government of Kenya is responsible for fully funding state corporations.

Hon. Speaker, as we speak right now, we have a lot of crises in ADC Mutara. Since the 1990s, the community has been given part of the land to graze their animals. Recently, however, the communities were chased away, and this House should be in solidarity with the community there. Those communities have been grazing in that land for more than 30 years. The reason they are being chased away is because the ranch wants to bring in some few individuals.

Hon. Speaker, there is a song by the late De'Mathew. The song says that a time will come when the big fish will have to eat grass because the small fish will have been finished in the ocean. In this country, the big fish usually suppress and oppress the small fish. The ADC Mutara Ranch is a very big asset. However, the residents of that area; Hon. Salim can attest to this because he neighbours the ranch; they obtain zero benefit from the land.

If you look at Ol Pejeta which is a private ranch, it is doing some community work. They give scholarships, dig boreholes and employ our young people. Now my question is about this ADC Mutara. If you listen to the media, ADC Mutara emerged number one at the Agricultural Show of Kenya. You wonder how it is emerging as number one yet the neighbouring community is not benefitting from this big investment that the Government of Kenya is doing at the ADC Mutara Ranch.

I, Mugambi Gatati, wish to urge the County Government, to please cooperate with the ADC to make sure to make sure that fencing of the ranch is done. The Constitution of Kenya states that if you own land that is registered as a ranch, you have the responsibility of fencing it so that wildlife do not get out of it and cause human-wildlife conflict.

So, Hon. Speaker, this is a thorn in the flesh and most residents of Mutara, Checkpoint, Habahaba, Bondeni, Matigari and Suguroi suffer a lot. If this ranch is well fenced, we can be good neighbours. We also urge them to support the nearby community. We have machinery in the ranch yet ADC Mutara solely depends on Mutara and Suguroi rivers.

They have many machineries and some rivers that end up in their ranch. My question is, why don't they dig big dams in the ranch? Yesterday we had a committee on cohesion, and we have written a letter to ADC Mutara ranch, and we should be visiting the ranch two weeks from now. We shall have many questions to the management team as the system is being run by the manager. We shall have the report and it shall be tabled in this House. I will request the day we will be visiting, because we have decided as the Cohesion Committee that we are going to visit all the ranches in Laikipia County.

We are not only bound to security matters but all other matters. 60% of Laikipia is occupied by the ranchers. So, our efforts and energy should be directed to those ranches even in terms of

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*

revenues. If we have 60% of Laikipia ranches, why should we not engage them and raise our economy and source of revenue? We also get to know and inspect what they are doing. Some of them have big hotels that has visitors flying from Wilson Airport to their ranches.

Hon. Speaker, this is a timely motion and I wish to request the members to support. Almost every Member here including Nanyuki Ward neighbours a ranch, and some of this ranch nuance to our residents. I wish to call upon Hon. Salim because he is a victim of human-wildlife conflict due to the poor fencing Mutara to second the motion, thank you.

Hon. Salim Edung: Bwana Spika, nashukuru kwa fursa hii kujadili uzio kwenye Mutara. Yale maswala ambayo Mheshimiwa Gatati amejadili kuhusu Mutara yamekuwa ni kama kidonda ndugu, kwa sababu miaka nenda miaka rudi unakuta sehemu hiyo ni tambarare na pia ni sehemu ambayo imetisha jamii katika eneo hilo. Ndovu wanaposhambulia mashamba hayo, wanaingia wazi kwa sababu hakuna uzio ulio wekwa pale. Wakulima wameathirika sana kwa sababu ndovu wanapotoka Mutara wanakuja kwenye mashamba ya wananchi. Wanasababisha uharibifu wa mimea, na hili limevumisha mtindo wa mkulima kulima na ndovu kuvuna.

Kama mtindo ni huo, sisi wananchi au viongozi wanaoongoza hawa wananchi, tunawatetea kwa njia ya kuleta mswada katika Bunge hili, na huo mswada urekebishwe na utekelezwe . Walinzi wa wanyama pori ambao wako kwenye sehemu ya Laikipia waweke uzio kwenye mashamba yao ili hawa wanyama wawe ndani katika eneo la Hifadhi ya Wanyama pori. Kwa sasa, shamba la Mheshimiwa Gatati likiliwa na ndovu, kitu cha kwanza idara ya *KWS* watauliza ni iwapo shamba lako lina uzio. Hivyo ndivyo vigezo vitakavyo tumiwa na idara hiyo.

Ukiwa na malalamishi ya kwamba shamba lako limeliwa na ndovu au wanyamapori wengine, kitu cha kwanza kitakacho ulizwa na *KWS* ni iwapo shamba lako lina uzio. Sisi tunasema kwamba ni vizuri shamba la Mutara lizingirwe kwa uzio kwa sababu kwa miaka mingi limekuwa ni shamba lenye vurugu nyingi kwa sababu ya wafugaji. Lile shamba hakuna pahali utakaposema lina uzio, wafugaji na mifugo wao wanapitia kila mahali kwa sababu wanatambua kwamba hilo shamba liko tambarare. Hili shamba pia limekuwa linaficha wezi kwa sababu wezi wanakuja, hasa wawindaji haramu.

Wanapoingia katika hilo shamba, wanafichana huko ndani kwa sababu hakuna mtu ambaye anajua ya kwamba kuna watu wako huko ndani. Na hiyo njia moja imehatarisha wananchi. Wanapokuja katika hiyo shamba kuishi watakuwa wezi wa mifugo na wawindaji wa ndovu, vifaru. Ni lazima tuangalie hilo jambo kwa makini. Kama Serikali Kuu inaona hii shamba imewashinda kuweka ua, Laikipia pia iko na maskwota. Basi hii shamba ipeanwe kwa maskwota ili wapate sehemu.

Sheria inasema ya kwamba yule mtu ambaye yuko karibu hapo anafaa kumiliki hilo shamba kwa sababu ni shamba la serikali. Hao watu pia wanahitaji kusaidiwa kama wale wengine. Mwaka uliopita kuna watu kutoka Serikali Tawala ambao walienda kuangalia mashamba katika Laikipia nzima (*public utilities).* Hizo ziko ndani ya ranchi na zitatumika namna gani zikiwa ndani ya ranchi.

Kama wenye ranchi wanajua ya kwamba kuna *public utilities* wafaa kuweka fidia kwa wananchi. Watoe sehemu na kupatia maskwota katika hiyo sehemu. Kuna pesa ambayo inatolewa fidia katika hizi mashamba. Ingethibitishwa ya kwamba fidia ambayo Ol Pejeta na Mutara wanatoa, kwa mwaka huu wasitoe ili wanunuliwe sehemu ambayo wataishi.

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*

Tunahitaji huo ua uzingirwe kwa sababu utatusaidia kwa njia nyingi. Ol Pejeta waliweka ua na walipoweka ua, walikaa na jamii na kukubaliana watawasaidia kwa kuweka maji, kujenga shule na kupatia watoto ufadhili wa masomo. Ol pejeta waliweka hiyo mikakati lakini ni mikakati migani ambayo Mutara imeweka. Kwa saa, imeenda zaidi ya miaka 59 Mutara ikiwa tambarare.

Sisi tunaomba Serikali Kuu ichukue hatua ili ua la Mutara irahisishe kwa kujua ni nani *legal grazer* katika hilo shamba na ameingia kwa njia gani. Ukiangalia wakati wa kiangazi, Ol Pejeta hukaa na jamii chini na kusema ya kwamba watawapatia miezi tatu ama nne na watapitia kwa mlango ili ng'ombe waingie pale. Mutara iko na milango mingi na mtu anaweza kupitia kila kona na kuingiza ng'ombe ili kuchunga.

Ninaunga mkono huu mswada kwa sababu sisi ndio tumeadhirika na sio ndovu wala *poachers* ambao wanapita katikati ya hizo ranchi. Keshoye, inasemekana zilipitia mahali fulani lakini ikiwa wanaua, inapatia vijana ajira ya kuzunguka katika lile shamba. Ninaunga mkono na ninaomba wenzangu ambao wako hapa tuunge mkono huu mswada kwa sababu huu mswada umekuwa kero katika Mutara na majirani zake. Asante, Bwana Spika.

(Question proposed)

Temporary Speaker (Hon. Paul Leshuel): Thank you, Members. Now the motion is open for discussion. Hon. Mugweru from Umande.

Hon. Daniel Mugweru. Thank you, Hon. Speaker. I wish to take this opportunity to make my contribution and also to appreciate that today you are seated there as the Speaker. When I look at your size and the size of the seat, at least there is something in relation. Number two, when you are there, your height is able even to see me from this direction. You have a good height and you are able to see all corners of this House.

Hon. Speaker, having said that, it's a great day we have this motion and at the same time it's a dark day for the nation. Hon. Umija is out. With news that we have lost one of the great men in this country, the former Prime Minister, or rather the Prime Minister because we don't have another one since he left the position, Raila Odinga.

Some may say that I am jumping the gun, but that is the truth. Whether I jump or I sit down, that is the reality. Hon. Speaker, we know very well that he has done a lot for this country. As much as we say opposition, you cannot mention opposition without mentioning him. He has been so vocal. He has been of very much help to this country. Anytime he has been strong in the opposition, the country has always gone well.

When the government is in danger, or the country is sinking, he always comes for the rescue of Kenyan citizens, the government, and all that. So, when we say that he was very patriotic, I don't miss those words because truly he was. When he was opposing, he's good. When he's in government, he's good. Wherever he is, he's always been good for this nation. So, it is a dark day for the nation and God will give way because he always has a way where there is no way God gives, or creates a way for his people.

Hon. Speaker, having said that, Hon. Mugambi Gatati from Salama has brought us a very good motion today and it is a conversation that should go around the whole county of Laikipia. It is not necessarily touching the Mutara ranch. It is something that is touching Laikipia entirely

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*

because the biggest percentage of land is occupied by ranchers. Hon. Speaker, as much as one may think that it is only touching the Salama ward, it is touching almost all the wards in this county.

Hon. Speaker, whatever we set for Mutara ranch is exactly what will come to Umande Ol Daiga, Ole Naisho, Ol Jogi and Ol Pejeta farms. Hon. Speaker, it is for us to make right decisions for this county because this one translates even to other regions in this county. Hon. Speaker, the law in this country, it was declared very well that all ranchers must fence their land. It has been that way, but we have not taken it seriously. Anytime you push them through that route and tell them that the law requires them to fence, they wake up and fence so quickly.

Hon. Speaker, me and you have got experience because what they are suffering from is what we have suffered from for many years because of Loldaiga and Ol Naisho. The people of Umande, Segera, Mukogodo East and Mukogodo west have suffered because of those ranches.

Hon. Speaker, we woke up as leaders and told them that they must fence, and joined together as leaders. They have fenced, not with government money but because they know it is the law. The part that is remaining to be fenced, is less than 400 metres and they are on site meaning that in the near future, they are going to complete the fence. To make the matters worse, those elephants used to come to Nanyuki to visit the town like anybody here. Right now, as we are talking, the elephants that are disturbing the people of Thingithu are not coming from that direction, but a different one.

Today we are hearing the people of Thingithu and parts of Nanyuki crying that elephants are here but there before, for them to be in Thingithu and Nanyuki, they had to pass through Umande and Segera. This time we have not seen because they have a different route. If all ranches can fence, we can live a happy life.

As I said earlier, animals are very good to those who are having them because we don't benefit from them as a community but from crops. Those ranchers benefit from animals. Let the people of this county benefit from crops which they rely on and let the ranchers also benefit from animals. The way I fence my land, let them fence their ranches and remain with their buffaloes and allow me to remain with my plants.

Hon. Speaker, we need to set that law clear that these ranches need to be fenced and we will give them an example. We will show them that Olenaisho and Loldaiga have fenced with no singe coin from the government. So, why not you if others are doing it? We must wake up and tell them the truth.

Number two, these people benefit so much through those ranches and the community around does not benefit in any way. Why I am saying this is because for a couple of years, it is only recently like three years ago when you hear Loldaiga educating the first three children in the schools around. This is the first time I am hearing the Loldaiga Valley giving a hundred lockers and chairs to every school that is around. This is the time I am seeing the primary schools around Loldaiga getting porridge from them.

They were still making money for many years but did nothing. This is the time we are seeing them employing people from surroundings. Like in your ward Hon. Speaker, this is the time I heard that Ole Naisho has done classes for Umande Primary. They have done almost the whole school. Where have they been for all those years? Therefore, it is upon us as leaders. We should wake up and tell them what the law requires them to do and then enforce it.

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*

Thirdly, we need to be very careful by knowing who a squatter is. You cannot just wake up and live beside my land and start saying that you are a squatter. We must be so careful because there are some people who have decided that Honourable So and so is not living in his land and they come to sit next to that land and start demonstrating saying that they are squatters wanting that land.

A time is coming when you say that you are squatter and the law turns against you and tells you that you are not a squatter, but somebody who trespassed somebody's land. The law will arrest you for trespassing. So, we need to wake and tell the ranchers that whatever land they are using, let them fence. The one they are not using and are not able to fence, let them give it to the community or the government to utilize in a better way. We cannot allow them to remain with big lands yet they cannot even fence. We cannot live suffering as they enjoy because for them, they are happy.

Hon. Speaker, you could tell, anytime in dry seasons, they used to release their elephants to come and feed from our farms. When there is green in the ranches, you don't see elephants coming but when it is dry they open for them to come and create disturbances to the community. It is high time as we work on Mutara Ranch, we work on all these other ranches and make the beneficiaries fence their lands to allow the community live happily. To allow the community to make money from their crops as they make money from their animals.

So, I support and call upon the Hon Members to support this. It is not just for Mutara Ranch or the people of Mutara but the entire county including the town centre. If buffaloes come into this town, we will see no one because they would false us out. If they happen to come in flocks the way they normally come, nobody would be able to stop them. They would visit the supermarkets and invade the town. They would be worse than Gen z and it would be worse for every one of us.

Hon. Simon Kanyutu: Thank you, Mr. Speaker. I don't know how to support or just put a question because I am so concerned with the Mutara issue. Before I do that, may I first of all mourn the leader of opposition, baba who has left us? It is a lesson to learn that all of us are on transit. There will come a time when I won't be here but I will have gone to my maker. So, we mourn with the nation because he was a leader. I am sure that he was very vigorous when we were fighting for multi-parties. That is when was trying to engage in politics while still at school. So, we mourn him and may his soul rest in peace.

Mr. Speaker, I am a bit concerned. The Mutara Ranch affects Marmanet because whenever the elephants stray, they relocate to Rumuruti Forest causing havoc in my area. My concern is, I am a frequent person who uses that route. Previously, I used to enjoy watching elephants from the other side of the fence because the area had been properly fenced. At the moment we should not see the fencing of that area. I would oppose the fencing.

First of all, I would wish that we get to know what the problem is with the community surrounding that area with Hon. Salim being the leader of Segera, Hon. Gatati being the leader of Salama and Hon. Nyokabi being the leader of Ngobit. As we speak, we had a very good fence that had been done within Mutara but has been damaged from one end to the other. All what I observed recently as I passed through that road, was only a big herd of cattle grazing.

Unfortunately, as we were consulting with my comrades here, he is telling me that first of all they need to have a sitting on how the community is going to benefit and that is why the damage

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*

has been done. It means that it is not an issue with fencing but the people from that area who are damaging the fence. Can you imagine Mr. Speaker, at the moment the government is fencing Regera Forest within Marmanet. Previously they fenced Rumuruti Forest. If I get to see that there is an issue that can damage our fence, we need first of all to get a solution before the issue happens.

The county itself is the one that engaged the scouts who maintain the Rumuruti Forest. Immediately the government is able to finish fencing Regera Forest, the county should also engage casual workers who will maintain that fence. First of all, I would wish that even if we have to push the government, because the resources that the government will use there is the same that is supposed to be used doing other activities. First of all, we should get a remarkable solution on why the community surrounding that area is damaging that fence.

It has come out very clearly because the Hon. Member here has stated that there are some squatters residing in those areas, which means these squatters are the ones who are damaging the fence so that they may be allocated that piece of land. Myself, I oppose. If that piece of land had been proposed for any activity, let it be used for that activity.

We being the people surrounding that area, should not damage the fence so that the government can engage us. We can push the government to engage us, but not damaging whatever the government has done. Mr. Speaker, on that…

Temporary Speaker (Hon. Paul Leshuel): Honourable Member, before you make your final words, whether you oppose or you support. Hon. Gatati has given us the direction of the way forward on that. The committee is going to the ground and we expect to get a very comprehensive report based on what you are addressing, whether the community are the people who are destroying the fence or those people who have never fenced the area. We are expecting that report so that we don't just talk on an open space. Thank you. Go ahead.

Hon. Simon Kanyutu: Mr. Speaker, my take is the area had been previously fenced. There are people who damaged that fence. The Honourable Member for Segera has clearly stated there are squatters who need to be allocated that piece of land. Mr. Speaker, before we decide on whether the area will be fenced, we need first of all to know why this fence is being damaged.

Previously, I used to enjoy finding a herd of buffaloes just next to the fence and they would not even come to the road. I also used to enjoy elephants and that is the only area that I got to see an elephant with a calf. That was previously. At the moment as we speak, you can't even get a single animal by the roadside. At the moment, all what we are getting is a herd of cattle. Mr. Speaker, as we push the government, we need first of all to get a solution on why is the community surrounding that area damaging the fence.

The area had been properly fenced. It is just on one part. There is an area on the other side towards Rumuruti that I have come to learn that there is a piece of land that has been allocated to AA Growers and they are developing it. Mr. Speaker, that is why the people on the other end think that because AA has taken the other, they take. I have even learnt that there are some prominent people who are even doing agriculture on the other side. That is why the community on the other end want the government to also give them the other portion.

So, Mr. Speaker, I wish that before fencing let us have a remarkable solution that even if the government defences, we have a permanent solution whereby the fence will not be damaged after installation. That is my take, Mr. Speaker.

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*

Hon. Mary Gathoni: Thank you, Mr. Speaker. I would like to send my condolences to ODM Members because we have just lost a hero. He was my role model because I am a fighter and I have learnt from him. Human/Wildlife conflict has become a menace and in Laikipia at large, not only at Mutara. It is the high time we task the County Executive to liaise with the relevant people so that we can come up with a short or a long-term solution.

The other day we had elephants in our compound and that is last month. I was thinking, what if there were children there? The only solution we had to do is to use the tradition method to just chase them away. So, if we can have a solution now, but if at all there are people who just wake up today and they want to become squatters, I don't know where we are heading to. People should learn how to have boundaries and own whatever is supposed to be owned by them. Thank you. I support.

Hon. Veronica Ikunyua: Mr. Speaker, I am Veronica. I have seen you have forgotten my name. First of all, I want to join the Kenyans this time they are mourning a hero and a strong opposition leader whom I supported in 2021 when we were marketing or trying to sell BBI. He is a fighter and he is a person who unites all Kenyans without putting any boundary, Mr. Speaker. Therefore, I want to join Kenyans to send my condolences.

This motion that has been brought here by Hon. Gatati is not affecting Mutara. I join other Members by saying so because last week elephants came to my village. You can imagine my village in Nturukuma. We were shocked and you can imagine seeing something huge walking at night. You are confused and you don't know whether it is a lorry that is coming. Mr. Speaker, you can imagine there were men who were coming from *maombolezi* and they were like, what is this coming? Is it a lorry that has no reflector? They were just about to be killed by them.

So, this issue of Human/Wildlife conflict is a thorn in the flesh and we need to handle it on a serious matter. Mr. Speaker, I would like to urge every Member that we need to be strong. We need to work together to push every rancher to fence their ranches. If they don't fence, it is going to affect everyone in this county. Mr. Speaker, in our village there are so many hyenas that are walking at night. Mr. Speaker, they are going back to their holes in the morning when children are going to school. Those hyenas, they are very notorious because they don't care about women and children. They are harassing our women in the village.

Last month, Mr. Speaker, I brought KWS to the area and they came with their trap. We tried to put meat from the cow to catch them yet they are not coming. They are so wise and I don't know why they are not coming near the trap. They are harassing our people, so we are urging the KWS also to work hard to come and save the community. They will eat our goats, they will eat our dogs and they will come to our people and our children.

Now we are just about to close our schools and if we are not careful, they are going to eat our children, our women, and us, me included. Therefore, we are urging and emphasizing that they should fence those ranches. They should fence it because if they let it open, that is why the animals are walking everywhere. Thank you, Mr. Speaker. I support the motion.

Hon. Samuel Mugambi: Thank you, Hon. Speaker. Ninashukuru wote ambao wameniunga mkono katika mjadala huu ambao ni muhimu sana wa kuweka ua katika shamba la ADC. Ningetaka pia kumweleza Mheshimiwa Kanyutu kwamba kuna mashamba mengine

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*

ambayo yako hapo ambazo ziko na ua nzuri. Kwa hivyo, ni kumaanisha kuna shida katika hii ya ADC.

Pia ninaungana na wale wengine ambao wanahuzunika kwa kuwachwa na baba yetu. Wacha tuseme ameumaliza mwendo na amepigana vita na amelinda Imani. Kwa hayo mengi na machache, asanteni.

(Question put and agreed to)

ADJOURNMENT

Temporary Speaker (Hon. Paul Leshuel): The sitting of this House now stands adjourned until later today Wednesday 15th October, 2025 at 2.30 p.m.

The House rose at 11.00 a.m.

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor*
